

When you're feeling uninspired and trying to conjure up fresh ideas, try these activities to turbo boost your creativity!

DESIGN IMAGINEER Activity Sheet

ONCE UPON A STORY...

Gather your friends and write a story. Each person should choose one of the questions below and write down a description to answer it. Don't tell anyone what you're writing until you've all finished!

1. Who is your main character? Tell us about them.
2. Where are they? What is it like there?
3. What is your character doing? How do they feel about it.
4. Your character gets annoyed about something. What has caused it?
5. Something makes your character happy. Describe it.
6. Who or what does your character go to, when something is broken? How does it help?

Now turn all of your answers into a story. How would your character tackle your creative challenge?

Take your challenge to different professions:

How would a pop star solve your challenge?

A teacher?

An airline pilot?

An engineer?

A chef?

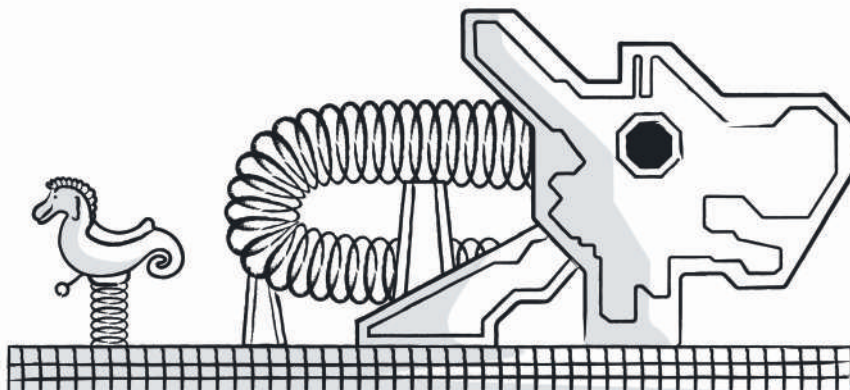

An eco warrior?

A nurse?

A taxi driver?

NEW ANGLES

How many different ideas could you come up with for each profession?

PAINT A RAINBOW

Think of one item for each colour in the rainbow. What would happen if you combined all those items together?

What could you create that might solve a problem or delight people in a new way?
